Kiss and Tell

Tell Bell™ is a new specialized dog training device that has a dog "tell" his owner when he needs to go outside to potty! Say goodbye to guesswork, accidents, barking, door marking and scratching from poor interspecies communications. Tell Bell™ transcends language barriers so "gotta go" is instantly understood between canine and human.

You get 2 Tell Bells™, 1 DVD and 1 dog-training manual based on the latest dog training techniques. You'll even learn how to train Fido to wait quietly by the bell when you can't come immediately.

Get one, because the 2 best things our dogs can do are kiss and now..."tell."
